Art Unit: 1712

1. The reply filed on 7/11/06 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): It is not a proper and complete response to the election requirement. See the explanation below. See 37 CFR 1.111. Since the above-mentioned reply appears to be bona fide, applicant is given **ONE (1)**MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

2. While the Examiner thought she had made a clear and understandable election of species requirement, it is apparent from applicants' response that the requirement was not understood. The Examiner will try to clarify.

Each of 1), 2) and 3) listed in paragraph 1 of the previous office action are generic aspects of the claims and a specific species for each of 1), 2) and 3) must be elected. There are many species that fall within "an alkoxide substrate" as found in claim 1. There are many species that fall within "alkoxide material" as found in claim 1. There are many species that fall within "a catalyst…" as found in claim 1. Applicants are required to elect a species within the breadth of each genus in the claim.

In fact, applicants' election "the species of group 3) to the generic catalyst" makes no sense. This is not a species but a genus that includes many different catalysts.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Margaret G. Moore whose telephone number is 571-272-1090. The examiner can normally be reached on Monday to Wednesday and Friday, 10am to 4pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski can be reached on (571) 272-1302. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
